EXCAVATING FOR THE MANHATTAN BIG FOUR MILL IS UNDER WAY

Special to the Bonanza

MANHATTAN, Nov. 11.—Excavating for the Big Four mill commenced this week and since Monday the work has been in progress. Some of the material has arrived at the mine and considerable more at Tonopah. The sub-contractor, J. H. Cahill, a civil engineer of San Francisco, was here Tuesday and Wednesday, and from this time forward the work will be rushed to its final completion.

Mr. Cahill has the sub-contract for everything included in the erection, from the excavation to the turning over of the machinery when the stamps are dropping on ore from the

huge slopes of the mine. The contractor is the Joshua Hendy Iron works, mill builder of the coast for nearly half a century. The only Nevada competitor in the bidding is understood to have been Campbell and Kelly, owners of the Tonopah foundry.

The contract requires that the mill shall be completed and ready to turn over to the company for immediate operation on or before January 15, 1913. Asked if that would be done, Mr. Cahill replied by asking:

"Have you much snow here?"

When informed that at the altitude of Manhattan, nearly 8000 feet, there was considerable snow every winter, he replied further that the completion of the contract on time would depend upon that feature alone. It is understood, however, that the inclination of the company officials is to allow ample time to do the work well, rather than to rush it too rapidly and get poor work as a result. Therefore, it will not surprise local people if the work requires from 30 to 60 days longer than the time set.

A lot of cement arrived the last part of the preceding week and the lumber is coming in also. The stamp battery will not be long in coming and the classifiers will be a little longer.

The stamps will be of the Joshua Hendy make and will weigh close to 1350 pounds, so it is understood, although Mr. Cahill stated that he was not informed upon that detail. They will be of such weight and capacity that ten of them will hammer out from 100 to 150 tons of Big Four rock in 24 hours.

The tube mills will come from the east and will be among the last items to arrive. They will be modern, as the regrinding will be a great feature, there being no intention of having plates above them. All the amalgamation will be below the tube mills.

The site is a short distance due north of the Big Four shaft, which is on the town side of the hill. It will stand in view of the Tonopah road and also be the most conspicuous mill in the camp.

Mr. Cahill remained only two days, departing Wednesday by auto for Tonopah, from whence he proceeded to San Francisco. He is a very young man for such a contract, but is highly trained in his line and is the possessor of great ability.

TEACHERS AND PARENTS TO MEET THIS EVENING

ALL PARENTS OF SCHOOL CHILD-

REN ARE REQUESTED TO BE

PRESENT

Teachers of the Tonopah public schools and parents of children attending the schools will meet at the primary building tonight at 7:30 o'clock. Superintendent Yoder has mailed out 240 invitations to the parents, and as it is probable that some of the invitations were not received, he requests all parents to attend the meeting. A program for a "round table" discussion has been formulated and it is hoped that the session will result beneficially for all concerned.

Superintendent Yoder has made arrangements for the formation of a Teachers-Parents club, the first of its kind to be organized in this state. Many clubs of this kind are in existence in the eastern states and valuable results are being obtained. The meeting tonight will witness discussion for the creation of a club of this kind. At tonight's gathering Mrs. H. G. Irvine will read a paper on the "Duties of Parents to the Schools." Other papers will be read by teachers and parents.

DOCUMENTS FILED WITH COUNTY RECORDER

The following documents were filed today with the county recorder: Deed—J. P. Montague to Lillian Adelaide Montague, lot 16 of block 14, Tonopah. Consideration, \$10. Proof of Labor—Dr. J. K. Turner of Congo and Transval claims, Bullfrog mining district.

CROOKED SCALES

More than 100 cases have arisen during the first year of the inspection of the weights and measures in the state in which owners of scales have been cited to appear before the board of control, according to figures which have been compiled by Professor S. C. Dinamore for the first annual bulletin of the department.

HEALTHY WOMEN SCARCE

IS THE VERDICT OF SCIENTIFIC INVESTIGATION

How many women do you know who are perfectly well, strong and healthy as a woman should be? They may not be sick enough to lie in bed—but they are run down, thin, nervous, tired and devitalized.

Women are so active nowadays, and so much is expected of them, that they constantly overdo and suffer from headache, backache, nervousness and kindred ills.

Such women need Vinol, our delicious cod liver and iron tonic without oil which will create an appetite, tone up the digestive organs, make pure blood and create strength.

Mrs. W. G. Ritchie, Patchogue, N. Y., says: "Vinol is certainly the best tonic I have ever taken. I was run down and tired all the time, but thanks to Vinol, I am feeling all right again."

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Miners Drug Store, Inc., Tonopah, Nevada. 12-adv
